Why Choose Yenza Academy?

Yenza Academy provides students with flexible, stackable qualifications in various career pathways, recognised worldwide. Our programme is designed for individuals seeking to fast-track their academic and professional goals. Through comprehensive courses and partnerships with top universities, Yenza Academy prepares students for successful careers and advanced degrees.

Programme Goals

Provide foundational and advanced skills to prepare students for career readiness and further study.

Offer flexible, stackable qualifications with seamless progression from diplomas to degree programmes.

Deliver globally recognised qualifications accredited by ATHE and Qualifi, enhancing international career and academic opportunities.

Key Benefits

Flexible Learning: Study at your own pace with online courses tailored to fit your schedule.

Global Accreditation: Earn qualifications recognised by ATHE and Qualifi, opening doors to international career and academic opportunities.

Industry-Relevant Learning: Engage in practical assignments and case studies that reflect real-world challenges, enhancing your employability.

Accreditation & Partnerships

Yenza Academy courses are accredited by ATHE and Qualifi and recognised on the Ofqual Register. Our academic partnerships with prestigious institutions, such as the University of Bolton and Bangor University, provide seamless progression for students who wish to continue their studies with a Bachelor's top-up degree.

Programme Structure

Business

The Business Pathway equips students with essential knowledge in areas such as management, marketing, finance, and entrepreneurship. Through practical assignments and real-world case studies, students develop critical thinking, problem-solving, and leadership skills, preparing them for a wide range of roles in the global business environment or further academic study.

Computing

The Computing Pathway provides students with foundational and advanced skills in areas such as programming, software development, database management, and systems analysis. Through hands-on projects and industry-relevant case studies, students gain practical experience, preparing them for careers in IT, software engineering, and further academic study.

Education

This Education Pathway has been designed to help teachers develop their professional thinking and practice, and enhance the quality of teaching and learning. It is for practising teachers, focusing on the development of knowledge, skills, and understanding in the key aspects of teaching and learning.

Psychology

The Psychology Pathway offers a comprehensive understanding of human behaviour, mental processes, and emotional well-being. Through theoretical studies and practical research, students develop critical thinking, analytical, and communication skills, preparing them for careers in psychology, counselling, and related fields or further academic study.

Hospitality and Tourism Pathway

The Hospitality and Tourism Pathway provides students with comprehensive knowledge of service management, tourism operations, and customer experience. Through industry-focused assignments and case studies, students develop leadership, problem-solving, and communication skills, preparing them for careers in the global hospitality and tourism industries.
